## **Emergency Services Responder Training Student Referral**

John Paul II Collegiate, in partnership with the North Battleford Fire Department, WPD Ambulance, RCMP, and Community Safety Officers are proud to offer a unique learning opportunity for high school students.

Whether you are looking for a way to get started on a fast-paced exciting career path, or just looking for how to help keep your community a safe place, Emergency Services Response Training is for you!

This course is designed to provide you with professional training to prepare you for employment in the area of public safety. Some of the modules offered include Fire Safety, where you learn different ways of extinguishing fires; EMS First Aid, where you will learn how to treat injuries; and Police Security, where you learn about the many laws that govern our communities. There are many more modules just like these.

This course will be offered in semester two and will take place at the NB Fire hall during period 4 & 5. Students will be able to earn both an Emergency Services Credit and a Special Subject Credit.

Students interested in this course should be in grade 10 or 11 and be prepared for a challenge. We anticipate that there will be more students wanting to take the course than there are seats available so we are asking students to submit an application form to the office by June 15, 2016.

If you have any questions about this course, please contact the school.
